

PABLO FLORES SPANGLISH RADIO

GROOVE WITH ME TONIGHT

You came to me without a warning
without a doubt you were the one for me
cause I could feel the fire burning
I knew I couldn't live
(another night)
and never knowing
(if I could be)
your every fantasy
(I must confess)
now that you're near me
I want to set this passion free

This feeling controls me, it drives me crazy
just let me, take over, don't fear it baby
the moment, is burning, you must surrender
it's now or never girl

[Chorus:]

Groove with me tonight, make it right
all I'm asking is a little more
just one touch of your body
groove with me tonight, it feels right
don't deny it
you know you must surrender, girl
it's now or never

You must surrender

You're next to me, the heat is flowing
and I can see you want this more than me
(just come to me)
my love is waiting, I wanna set this passion
free

This feeling controls me, it drives me crazy
just let me, take over, don't fear it baby
the moment, is burning, you must surrender
it's now or never girl

[Chorus]

My love is waiting, girl
it's now or never

This feeling controls me, it drives me crazy
just let me, take over (let me take over),
don't fear it baby
(don't fear it baby)
the moment, is burning, you must surrender
it's now or never girl

[Chorus]

Right, make it right
all I'm asking is a little more
just one touch of your body
(just one touch)
groove with me tonight, (groove with me
tonight)
it feels right
don't deny it
you know you must surrender, girl
it's now or never

Right, make it right
groove with me tonight...
