

# GEORGE DUCAS LONG TRAIL OF TEARS

Got my hands on the wheel all night I've been rolling  
Since you've run to him I don't care where I'm going  
Cause any road I take won't make my heartache disappear  
And every road winds up a long trail of tears  
It's a one way lonely highway tears fall like rain  
Cause all I see is your mem'ry with each step I take  
If you ever have a change of heart you'll find me waiting here

Baby just follow the long trail of tears  
[ guitar ]  
I stood by watching while our bridges crumbled  
And I drove you away to the arms of another  
I could drive for miles and miles if I could hold you near  
But I'm bound to travel a long trail of tears  
It's a one way lonely highway...  
Baby just follow the long trail of tears
