

# MAD MANOUSH NIGHT TANGO

The lights are low, the night is young  
and stars light up the Latin sky  
The tango band begins to play  
in your heart a burnin' desire

A certain magic in her eyes  
seems to tell you: have no fear  
you are dancin' skin to skin  
and she whispers so smooth in your ear:

Come dance with me the tango  
all night long ...  
Come dance with me the tango  
'till the break of dawn ...

She makes you slowly lose your mind  
and you are fixed as if by glue  
you will dance the night away  
tonight all your dreams will come true

Come dance with me the tango  
all night long ...  
Come dance with me the tango  
'till the break of dawn ...

Come on, let's tango  
come on, let's tango ...

Take her to the dance floor by the hand  
she'll guide you this night to a foreign land  
your skin feels tight, a sudden urge within  
you and she begin to tango skin to skin.  
Come on, let's tango,  
come on, let's tango ...

Feel the drama rise,  
look deep in her eyes  
the temperature rises higher,  
you feel the burnin' desire  
lost in love time just flows  
where it's ending, nobody knows.  
Come on, let's tango,  
come on, let's tango ...

Come dance with me the tango  
all night long ...  
Come dance with me the tango  
'till the break of dawn ...
