

# HIGH VALLEY ROADS WE'VE NEVER TAKEN

Roads We've Never Taken - High Valley  
Bucket seats, bucket lists  
Eagles on the radio, girl watch this  
Two young kids hot on the heels of a dream  
Fire and dust under tires and rust  
Long way to freedom baby, look at us  
Two young kids, hot on the on the heels of a dream

Let's put that boot to the pedal, aw, that pedal to the metal  
We ain't gotta settle for the same old sames  
It's called leaving for a reason, mistakes are made for making

Two lanes and two doors  
Tennessee miracle, thank the lord  
Should I be staring at you or this big blue-eyed sky  
Gods paintbrush, your hair in the wind, dirt road heaven, I'm living in  
I'll do the driving baby, you can drive me wild

Let's put that boot to the pedal, , that pedal to the metal  
We  
It's called for a reason, mistakes were made for making  
We know which hell we go  
Roads never taken

Motel sex, paying cash  
Mountain Dew and map co gas  
Burnin' bread just county lines  
Ain't no tellin' what we gonna find

Let's put that boot to the pedal, , that pedal to the metal  
We  
It's called for a reason, mistakes were made for making  
We know which hell we go  
Roads never taken
